

**Alberta Adventure Divers
Aug 17, 2016**

Summer slips by far too fast.
Enjoy every minute of it!

Pool time: PADI Open Water lessons: class dates moved to Sept 24 & 25. You have the choice of a referral to complete the Open Water dives at a tropical destination, or join us at Clear Lake. If you are interested, or have someone that wants to be your dive buddy, contact Dan at the dive shop.

Discover Scuba and Seal kids: join us in the pool Sept 24 or 25...email me and we can set up a time!

Dive weekend: Sept 10 & 11: We will be teaching a Rescue diver course, and setting up for the pumpkin dive – please join the fun!

Rescue Course: Sept 10 & 11: This is one of the 'pinnacle' courses you will always remember. Rescue students gain skills to save themselves and other divers from a potentially dangerous situation.

The Rescue program encompasses rescue techniques such as prevention, readiness to respond, first aid, CPR & AED review, decompression injuries, underwater searches, and use of specialized equipment. This weekend of open water training scenarios has divers experience simulated "real life" situations that they could encounter in a real diving situation such as out of air divers, missing divers, a panic diver, diver with a pressure related injury, diver requiring immediate first aid, unconscious diver and many other scenarios.

This course is a must for anyone who is an avid diver. This includes the diver who travels on dive vacations and is likely to experience a diver who's received improper training or a diver who has NOT kept up their diving skills, equipment or knowledge.

Divers need to be certified Advanced Open Water, and have First Aid/CPR.

Course Cost is \$310 (plus elearning) and includes PADI Rescue Diver crewpak. If you're

interested in this course sign up for the e-learning for Rescue, and start your journey to safer diving today.

Many call this their most memorable PADI course, and if you've got the Advanced Open Water Program under your belt, this is your next step towards your PADI Master Scuba Diver Rating.

Pumpkin Dive – Oct 1 at Clear Lake:

If you have never carved a pumpkin underwater, this is a great chance to check it off of your bucket list!

If you have taken part of this adventure with us, you know what fun we have at our pumpkin dive. It would be great to see you again.

The pumpkin preparations are underway! As usual, the first dive is a mystery dive, then we have a lunch break, and the second dive you and your buddy take your pumpkin underwater and carve it.

Tues. dive night: So much fun! Last night had many surprises – Dan designed the coolest sign to put on the safety stop structure which was built this month! It is amazing – you have to see it!

Many artifacts are on our underwater course, which makes local diving entertaining. In Alberta, divers make our own fun.

- Les is working on an elaborate 'rest area'. Hmm
- David is spearheading the creation of a display to commemorate the plane that crashed in Clear Lake in the 40's.

The visibility is– 5-15'. All the cool divers hang out at the lake on Tues evenings. We are front page news! Follow this link for the article:

AUC events: Keep an eye on the Alberta Underwater Council's website for the ongoing dive events in Alberta: Cold Lake's Underwater Rodeo is Aug 20!

Alberta Underwater Council: Divescapes: This is a great non-diving event about diving. It will be Oct 21-23, in Calgary. Mark your calendars now to join David and Connie. Divescapes is always fun, entertaining, educational, and a great time to meet dive buddies from around the province.

Divescapes is an underwater trade show venue bringing divers, travel agents, tourism boards, manufacturers, resort & boat charter operators and dive store retailers together into western Canada's largest scuba conference. Additionally, it is all about the guest speakers & their film presentations. You'll enjoy the international, keynote & local presenters. Follow this link to book your 2016 Pass: <http://www.albertaunderwatercouncil.com/news-events/divescapes-scuba-conference.aspx>. This event only happens every two years or so.

Store hours: We are open from 8:30 to 5:30 weekdays..... and this year we will remain open during the winter season! Stop by to check with Dan on the latest and greatest in dive equipment. If you wish to stop by after hours or during lunch please call so we can make arrangements!

Connie & David Faas,
Dan Ermel
