

## Alberta Adventure Divers Nov 5, 2017

St. Eustatius fun  
Nov 25&26: Pool sessions  
Nov 25: St. Eustatius movie night  
Nov 25: Tropical trip planning to 2019

**St. Eustatius:** This wonderful little Caribbean island was perfect in every way – once we arrived! Hurricanes Irma and Maria did very minimal damage to St. Eustatius; however it wreaked havoc with flights to the connecting islands. After flights were cancelled in Sept, all of us except for one were able to rebook.

We will be returning!

Everything we were promised was true: the water was 83F; the wrecks were fun; there were lobsters everywhere; the fish were not too skittish in the marine park; the food & accommodations were very good – ask about the ribs, and the deserts!

To top it all off, we found underwater treasure buried for 300 years. We even brought back the one piece of treasure that is allowed to leave the island. We'll bring it to movie night on Nov. 25.

St. Eustatius this week.

Clear Lake this week.
