Christmas at the dive store
Regulator servicing season

Connie's Christmas Corner: Covid has brought about unusual changes in what we do. Upon reflection, I realized we have never really dove into the Christmas spirit at the dive store. The store is open, and we put up a few decorations; but our hearts and thoughts are typically into dive travel. Covid has changed this, for now.

This year Christmas is exploding at the dive store!

I love Christmas, I love pretty decorations, I love the Christmas spirit of giving, and sharing, and caring about family, friends, and those who need a hand.

I created 'Connie's Christmas Corner'. I invite you to come and check out my compilation of cool Christmas treasures.

I have shopped far and wide for unusual scuba themed treasures. Most items are bundled with gift cards; some are sold separately.

These items are unique, they are limited

quantities,
and this is

the first time for a sneak peek at some pictures of what we have.

Of course, all the regular scuba gear is available as well – you may be looking at your first equipment purchases, or to upgrade aging equipment. We have new gift cards for family and friends who want to support your scuba habit, but don't know what you really want or need,

The November newsletters have historically been about travel, with details on group trips. Last Nov. David and I were in Norway, snorkeling with the Orca's. I loved that trip! 2021 will be about diving in Canada! And hopefully Guadalupe.

Equipment Servicing: 'Tis the season...to service your regulators!
 Additionally, if your dry suit has been less than dry, your BCD inflator sticks, these are critical pieces of equipment that you won't need for a little while. Good planning says to have it serviced now, so it is ready to dive when you are!

New regulators: If it is time to upgrade your regulators, or to purchase your first set, we would love to chat with you about the options available.

Dan's Deals: This week, we have a couple of new bcd's that will be perfect for pool use, or tropical dives when we get to travel again.

New email tool: Coming up soon, we will be testing a new distribution tool for our newsletter: Constant Contact. We are always looking for ways to improve.

Dive store winter hours:
 Tues to Fri from 8:30 to 5:30 pm, closed for an hour at lunch.
 Mon, evenings and weekends are by appointment: we'll work out a mutually acceptable time.

Thank you: David, Dan, Mark and I truly appreciate the strong and loyal support from our customers. Thank you for thinking of us, even though we are not able to dive for a while.
 I will let you know when ice dives and pool dives recommence.
